Project Information Sheet

(Attach any additional pages if necessary and/or photographs and plans, i.e. landscape plans, that will help in the evaluation of the project. Please convert entire document including application, photographs and drawings to a .pdf file and email to info@keepPBCbeautiful.org)

Summarize the project to be undertaken:

In order to make our school a more welcoming place, we plan to cleanup the neglected landscaping on the school campus (i.e. remove trash, weeds, dead plants, etc.) that is visible
to the community and school members. We plan to add sod and mulch around the campus to
make Forest Park beautiful.

Describe the site as it is today and why changes are needed:

The landscaping has been neglected around the school campus. Weeds are overgrown and have
killed plants/grass around the school grounds. We want to make our school a place that reflects the inviting campus that we are to parents, students, staff, and community members.

Describe the project as envisioned when complete:

Parents, students, staff, and community members will be able to enjoy the renewed school grounds
with a more welcoming feeling.

Describe your work plan from the beginning of the project to completion (include dates and work to be performed):

February-March 2017: Clean up campus of any trash, pull weeds and dead plants to prep for placement of sod/mulch.

April-May 2017: Place sod and mulch to beautify the grounds.

Organization Information Sheet

Describe your organization in relation to the proposed project:

We are teachers at Forest Park Elementary.

Describe the partnerships (if any) with other entities that have been formed for the project and their contribution:

We are looking to build partnerships with community members pending approval of grant.
(i.e. local churches, nurseries, and other local businesses

If applicable, describe what the organization will do to ensure the maintenance of the project for a minimum of the next 3 years:

The School District of Palm Beach County has regular landscaping done to the grounds.
Every year, the students and teachers of the school will participate in the Great American Cleanup
in order to maintain the grounds.
